Company Profile

MS Monster Global offering scent-marketing solutions for enterprises. With the use of fragrances, the consultancy helps companies conquer consumers' olfactory sensory experience, establish brand image and promote customers' loyalty towards the brand.

Upholding the brand-building spirit of "The Power of Smell", the innovative label MS Monster gradually evolved from a fragrance product maker to a brand name offering a wide range of products.

Primarily focusing on the research and development of spatial scent-diffusion system, MS Monster also committed to develop aroma-based memory recognition technology and other natural fragrance products. The incorporation of fragrance as a marketing strategy concept is mainly presented in venues such as hotels, theaters, airports, chain supermarkets, offices, club houses, high-class residential housing, showrooms, etc.
